Product name

ORIGAMI

New disposable paper face shield "ORIGAMI" which can be produced at short notice on a large scale

Features

It becomes a paper shield, when folded like origami. It has a simple structure and made of cardboard and PP (polypropylene) only. Drip-proof property is provided with polypropylene laminated cardboard surface.

(Supplement)

The three-dimensional structure keeps the front surface of the film flat and suppresses distortion of the field of view. Its shape also enhances the ability to protect from droplets going from sides and underside of the face. It has excellent anti-fog performance due to the proper design of the gap with the face.

Before assembly

This product is a simple origami about 0.5 mm thick at the time of shipment. Its total weight

After assembly

It is enough room inside, so the shield does not tend to fog up. It is also does not conflict with
